### SUMMARY

Experienced **Frontend Developer** with a passion for clean code and intuitive design. Adept in React, JavaScript, and UI best practices. Looking to contribute technical skills to forward-thinking teams and elevate product quality.

### PROJECTS

#### Weather Web Application

- Developed a real-time weather app that displays current conditions using live API data.
- Implemented responsive UI for seamless access across devices.
- Integrated location-based weather updates for enhanced user experience.

#### Currency Converter Web Application

- Built a currency converter leveraging real-time exchange rates via API integration.
- Designed an intuitive interface for selecting currencies and entering amounts.
- Enabled instant conversion results with accurate, up-to-date data.

#### News Web Application

- Created a dynamic news platform aggregating articles from multiple sources.
- Enabled users to customize their news feed by selecting preferred topics.
- Ensured real-time updates and responsive design for an optimal reading experience.
