CAREER SUMMARY:

Result-oriented Frontend Developer with expanding expertise in Full-Stack development using the Next.js ecosystem. Proven ability to build scalable web applications, integrate complex third-party APIs (AI models), and design intuitive user interfaces. Passionate about solving complex architectural problems and delivering production-ready software.

WORK EXPERIENCE:

MailMunch

Frontend Developer Intern | November, 2024 – February, 2025

- Contributed to frontend development tasks and UI improvements
- Collaborated with team members to enhance user experience and interface performance
- Worked with modern frontend tools and best practices in a professional environment

PROJECTS:

Full-Stack E-Commerce Platform

Next.js 15, Prisma, PostgreSQL, Stripe, Clerk, Cloudinary

- Production-ready platform with server-side pagination, debounced search, faceted filtering, and 100+ product variants
- Stripe webhooks for automated order updates; Admin Dashboard with RBAC, image uploads, and sales analytics

Car Market Place

Next.js, PostgreSQL, NeonDB, UploadThing, SendBird

- Built a full-stack car marketplace using Next.js 15, PostgreSQL (NeonDB), and Drizzle ORM, featuring real-time chat (Sendbird), secure authentication (Clerk), and dynamic search with optimized client-side rendering.

NextStep Résumé (Final Year Project)

Next.js, Google Gemini API, PostgreSQL, Clerk

- Developed an AI platform for smart resume creation, mock interviews, and job-match suggestions
- Automated career guidance workflows to reduce manual effort in the job search process

EDUCATION:

2021 – 2025 | Minhaj University Lahore

Bachelor of Computer Science

2018 – 2021 | Pak Poly Technical Institute, Lahore

Diploma of Associate Engineer – Information Technology
